

Silvia back panel removal instructions

The following instructions will guide you through removing the back panel on your Silvia. Please read the entire instructions before you start.

1. Unplug the Silvia
2. Remove water tank.
3. Remove the four screws on the top cover.
4. Remove the top cover.
5. Make sure the machine is unplugged.
6. Look down inside the area that the reservoir was sitting in. Notice the square cut out at the back of the angled plate. Loosen the Phillips head screw below this square cut out but to not remove it.
7. Notice the black frame that comes up the sides of the Silvia. Remove the two small Phillips head screws at the top of the black frame that hold the back panel on.
8. The back panel is now loose and you can slide it off to the rear.
9. To install the panel just reverse the process.
